

2008 PEDESTAL PRICES

Our pedestal cabinets are all custom made by local Wyoming craftsmen. Each is solid wood, we use no laminate and each can be finished to your liking. Pedestals can be weighted to hold even double mounts steady. Mount weight may be a factor in determining the pedestal size required.

The prices on our custom pedestals will vary depending on your choice of wood and design. All the prices listed below are approximate, to give you an idea of cost. Firm quotes will be given when we receive your specifics.

Financing is available! Call us to discuss a payment plan!
